Freedom!

Celebrating its 15th anniversary, Windlass Steelcrafts is proud to bring you, for the very first time, the Officially Licensed Braveheart Sword as used on screen. Working directly with the master armorer from the original production, Simon Atherton, we have expertly reproduced in every detail the famous sword of William Wallace as carried by Mel Gibson. This impressive broad sword is hand forged of high carbon steel, fully tempered and with a full tang as the original was and would have been made to further add to the realism. The authentic materials extend to the custom wood grip and oil tanned leather wrap. No scabbard available. Nothing has been left out, you own the exact version as carried on set. Includes full color wood display plaque, certificate of authenticity and even the exact custom made, wool tartan strip tied to the handle as seen in the film. This famous and exacting replica is a must for any movie or history aficionado.

Product parameters:
