A half-scale replica of the blackened steel war helm of the Dark Lord Sauron, as seen in the motion picture, "The Lord Of The Rings: The Fellowship Of The Ring". This is a scale reproduction of the actor-scale filming prop built by the film's production team. United Cutlery, industry leader in fine movie reproductions, has meticulously recreated the actual prop helmet using an original movie prop casting for reference. This half-scale polyresin replica is 15 1/2" tall. It features weathered intaglio-etched surface sculpting and blackened sleek coloring that precisely match the original movie prop. Close attention to detail is a top priority in every piece. It is presented with a polystone display stand sculpted in the same styling as the mace and armor of Sauron and includes a certificate of authenticity.
